

The background of the image features a large, stylized logo for Hedley & Bennett. The logo is composed of several overlapping, rounded shapes in two shades of orange: a lighter, vibrant orange and a darker, more muted orange. These shapes are arranged in a way that suggests a stylized 'H' or a series of interlocking forms. The overall effect is modern and organic.

CATALOG 2025

KITCHEN ESSENTIALS DESIGNED WITH & FOR THE BEST CHEFS IN THE WORLD.

Hedley & Bennett was born in a professional kitchen. We saw first-hand the need for aprons that looked good and worked hard. Our first customers were some of the best chefs in the world, and their input made (and continues to make) H&B what it is today.

THE ESSENTIAL APRON

An apron is the most important kitchen tool you never knew you needed. Ours is a modern staple, designed to help you show up as yourself in the kitchen, safe to get your hands dirty (and offering a good spot to wipe them). When you put this thing on, you can pull anything off.

DIMENSIONS

neck strap up to **36"**
waist strap **43"**
length **33"**
width **30"**

ADJUSTABLE NECK

One size fits all - really! An adjustable neck strap makes for an easy, flexible fit, no matter how tall you are.

UTILITY LOOP

Easy access for towels & tongs.

DOUBLE PEN CHEST POCKETS

Two is one, one is none: never be without a pen again when they're this easy to store, and reach.

100% AMERICAN COTTON WEBBING

Ridiculous durability and all-day comfort.

TWO LAP POCKETS

Doubly reinforced corners mean you can keep jamming crap in here - your phone, Field Notes, a lucky penny - and they'll never let you down.

THE KNIVES

A great knife is literally the most essential tool for any cook, so we set out to create the perfect one. Working side by side with pro chefs, we designed these knives to expertly take on any task, then relentlessly tested it to ensure it holds up to the rigors of even the toughest kitchens (and most demanding chefs).

HERITAGE STEELS

we chose the highest quality steel for the job; a three-layer Japanese AUS-10 core for the Chef's and Utility knives, and a classic German steel for the Bread knife

CURVED SPINE

We sweat the details, so we curved and polished the spine of the knife to feel comfortable and keep your hands callus free

PERFECTLY SHARPENED

All sharpened to the perfect degree for precise and durable cuts

BALANCED WEIGHT

Not only is it ergonomic and comfortable, we designed our knife to have its center of gravity at the exact spot where it's meant to be held for peak maneuverability.

CARE

Wash with soap and water and wipe dry after use.
Do not put in the dishwasher. Always cut on appropriate cutting surfaces (like wood, plastic, or rubber). Do not cut on hard surfaces that can dull the blade. Store your knife safely, and protect the blade from contact with hard surfaces

ERGONOMIC HANDLE

The handle of our knives was developed over countless iterations with the most respected chefs in L.A. Ultra comfortable to hold whether you're chopping for 10 hours or 10 minutes
