BOWL-LIFT

ARTISAN - BOWL LIFT

ARTISAN - BOWL LIFT

6.6L / 6.9L

Bowl-lift stand mixers are designed with broader bases and stationary heads. In addition, the bowl attaches to two arms that are raised and lowered with a lever. Accessories can be switched or ingredients added while the bowl is lowered. The powerful motor and sturdy design of the bowl-lift stand mixer provides the stability needed to help you create recipes from heavier mixtures.

KitchenAid® bowl-lift stand mixers come with 5–7-quart bowls which are perfect for mixing from 9 to 14 dozen cookies or multiple batches of recipes at once. Additional bowl sizes can be purchased separately, such as the 3-quart bowl with whip accessory for when you need less capacity to whip ingredients.

At around 16½ inches tall, the bowl-lift stand mixer is best stored on the countertop for easy access.

TILT-HEAD VS. BOWL-LIFT STAND MIXER FEATURES

FEATURES	TILT-HEAD MIXER	BOWL-LIFT MIXER
BOWL ACTION	Twists onto base and remains stationary	Secures to arms that raise and lower with a lever
STAND MIXER CAPACITY ¹	3.5–5 quarts	5–7 quarts
COLORS	40+	10+
BEST FOR	Single households, families and everyday use	Large batches and heavy mixtures
ATTACHMENTS	10+ ²	10+
SPEEDS	10	10
WEIGHT	18–26 pounds	29–32 pounds

1. [Additional bowls](#) in different capacities, materials, colors, finishes and patterns can be purchased separately.

2. Ice Cream Bowl attachment is not compatible with the mini tilt-head stand mixer.

BLENDER

1.4L ARTISAN K400-SERIES

KitchenAid brand's expertly crafted 3-part blending system: 1.5 peak* HP motor (with intelli-speed), unique asymmetric blade and ribbed jar

These 3 parts work together in harmony to power through tough ingredients for smoother results and to produce perfect texture and taste

- Adaptive motor and Intelli-Speed motor control Senses contents and maintains the optimal speed to power through all ingredients
- Unique asymmetric stainless steel blade, sharpened and precisely angled Blends at 4 distinct angles to pull ingredients into the center to power through the toughest ingredients
- 1.4 L ribbed glass jar Folds contents back onto the blades to create a powerful blending vortex to easily tackle tough ingredients

Simple intuitive controls: one variable 5 speed dial including Pulse, 3 preset recipe programs (ice crush, icy drinks, smoothie) and self-cleaning cycles

To blend the best-tasting creations or to control taste and texture with a range of variable speeds

1.4 L new blender design available in a large number of fashionable colours To match everyone's personality and kitchen

Stable die-cast metal base and die-cast metal knob Sturdy, stable, durable and easy to clean

Discover more possibilities with the blender optional accessories:** 500 ml personal jar, 200 ml small batch jar and 1 L citrus press To create more taste

*Motor horsepower for the blender motor was measured using a dynamometer, a machine that laboratories routinely use to measure the mechanical power of motors. Our 1.5 peak horsepower (HP) motor reference reflects the horsepower output of the motor itself and not the Blender's horsepower output in the blender jar. As with any blender, the power output in the jar is not the same as the horsepower of the motor itself.

TOASTERS

YOUR TOAST, YOUR WAY

Designed with deep and wide toasting slots, smart heat sensors and a special shade control, KitchenAid® toasters are made to make perfect toast—and your morning.

KitchenAid

TOASTER

The Artisan Toaster truly offers the ultimate toasting experience : the Auto Sensor automatically lowers and lifts all types of toast before browning according to seven grades of “golden”, counted down by an LED timer. Like a thoughtful friend, if you’re called away, the Artisan Toaster will also keep your toast warm. It also features a sandwich rack to prepare delicious, no-drip toasted sandwiches and a bagel function for perfect bagels and buns.

ARTISAN TOASTER

5KMT2204

- Auto sensor with keep-warm feature Automatically lowers/lifts toast and gently keeps it warm
- 7 shade settings with LED countdown timer Choose and monitor your browning preference
- Sandwich function with sandwich rack* Prepares delicious, no-drip toasted sandwiches
- Frozen function Gently defrosts and toasts frozen bread
- Bagel function Perfect for bagels and buns: toasts the inside, warms the outside
- Die-cast metal construction with extra wide slots Robust, stable, toasts any type of bread
