Hands - Free Slow Juicer
AUTO 10

1

Safety Fastening Structure

It is designed to operate only when the automatic container and drum are securely fastened, it provides a safer juicing environment.

2

World First 3,000cc Auto Hopper
It is possible to extract a large amount of juice at once by applying the world's largest capacity 3,000cc class auto hopper.

3

Additional feeding chute
An additional feeding chute is applied to the center of the auto hopper lid, to add additional ingredients during juicing.

Whole Slow Juicer REVO 830S

OPTIMIZED FOR CARROTS & CELERY

The newly upgraded feeding chute allows you to select a custom feeding chute for each ingredient. A whole apple can be inserted in the feeding chute of the flip gate type, and long ingredients such as carrots and leafy vegetables can be inserted in the Auto-cut chute without cutting them, reducing preparation and juicing time, minimizing oxidation, and maintaining freshness. Ingredients placed in the Auto-cut chute are automatically cut and transported sequentially to minimize the amount of ingredient left inside the drum, enabling more efficient juice extraction.

Available Color

Matt Black

Light Silver

01 The new dual feed chute design
Dual feeding-chute eliminates overload of the ingredients

02 Wide Flip Gate
Large opening accepts whole apples, oranges, and more without pre-cutting.

03 Smart auto-cutting technology
The automatic cutting system adjusts its speed for each ingredient, creating an optimal juice texture.

Whole Slow Juicer EVO 820

Get the most from your juicer with the EVO 820. With its 82mm wide dual feeding chute and two-way flip gate. It's easy to juice a variety of ingredients with the two-way flip gate design—just drop and juice. Whether you create nut milk, wheatgrass shots, green smoothies, celery juice, or fruit sorbet, the EVO 820 will bring the exceptional quality and the taste to your active lifestyle.

Available Color

Matt Red

01 The New O Shape Flip gate

The new 5th generation O shape flip gate is wider than the existing models for easier juicing and has only one feeding entrance for convenient juicing possible.

02 Leather Pattern New Design

The front leather pattern and the streamlined body let you feel luxurious.

03 Upgraded 5th Generation Drum

The 5th generation drum improves durability and expulsive power by changing the internal structure and combination of the juice strainer.

HOUSEHOLD JUICERS FEATURES

Wide Feeding Chute for Easy and Fresh Juicing – the unique wider feeding chute of the Kuvings Whole Slow Juicer allows you to juice whole fruits and vegetables and simplifies the juicing process without cutting.

Optimized Juice Yield, Reduced Pulp

You get more juice yield through the Kuvings Whole Slow Juicer thanks to the gentle optimized squeezing technique.

Freshness and Minimized Nutrients Loss

By juicing whole fruits and vegetables the Kuvings Whole Slow Juicer produces natural juice rich in nutrition, minimizing nutrients loss and oxidation which occurs when cellular walls are destructed.

Quiet Operation

The operation noise level of the Kuvings Whole Slow Juicer allows you to enjoy a fresh juice in a relaxed and calm atmosphere.

Smoothie & Sorbet Strainer

(optional accessories)

Enables you to create a variety of delicious and natural desserts and smoothies for your family and friends.

PRODUCT SPECIFICATION

ENJOY A NICE SMOOTHIE OR DESSERT
WITH FRIENDS AND FAMILY
TO RE-ENERGIZE YOUR TIRED BODY AND SOUL.

Give your children love by making them a fruit dessert rather than buying them ice cream that contains additives and preservatives.

OPTIONAL ACCESSORY

* Each component may vary from product to product.
