Our goal is to inspire creativity in the kitchen and enhance your cooking & entertaining experience with the finest tools available.

We designed all our products following 4E Principles:

OUR 4E PRINCIPLES

TRADITIONAL EDGE GRAIN 107

Are some cutting boards gentler on your knives? A good cutting board is a knife's best friend, and according to America's Test Kitchen we are "The Last cutting board you will ever need".

Our 107 Rectangle Edge Grain Cutting board is spacious enough when trimming big roasts or slicing long bunches of leafy greens. It's heavy enough to provide stability and large enough to accomplish all your prepping needs.

THE BEST WOOD

A board's durability is related to the type of wood it's made of. Teak is a tropical wood with a high oil content that acts as a water repellent. Teak's medium hardness provides a luxurious cutting experience while keeping your knives sharp. Teak is easy to maintain. With only a few oil drops your boards will look like new again.

Traditional Collection

"The Last Cutting board you will ever need", according to America's Test Kitchen. Certainly, you will want a board from this collection. It's a chef favorite, perfectly made for cutting or carving.

ETERNAL CARE FOR YOUR
CUTTING BOARDS

Why is this a better formula?

We're adding three new ingredients to our formula:

- **Natural beeswax** helps to seal out odors and stains, making your cutting board easy to clean.
- **Coconut oil** helps to condition and maintain the wood's natural oil and beauty.
- **Orange Essential Oil** - Lightly scented that doesn't interfere with your cooking and combines perfectly with the natural oil scent of the teakwood!
